Team 3176 Purple Precision is a robotics team located in Brownsburg, Indiana. We are funded almost entirely by independent sponsorships and donations. As part of an organization called FIRST, we participate in annual competitions and work to promote science, technology, engineering, and math (STEM). Over the years, our team has continued to grow and improve, and we have made many accomplishments, such as winning the 2017 Indiana State Championship 2021 Indiana State Runner-up and being a consistent Semi-Finalist.

We appreciate your consideration!
